Washer and Dryer Tips

Be good to your set and they will be good to you! Here's some tips and tricks on what you should do before and after every load of laundry!

1. Clean out dryer lint filter to maximize efficiency.
2. Dry the washer's door and gaskets after using. Open the door on top-loaders to foster air circulation and prevent mold.
3. Always ensure that the washing machine is level and on firm footing.
4. Make sure to always use the proper type and amount of detergent for the machine and load. You can actually damage some models by using the premeasured pods. Check your manufacturer's recommendations!!!
5. Remove damp clothes from washers immediately. This will help to prevent mold or mildew buildup.
